

Good day,
I would like to urge you to reject NAB's petition 04-160.

I'm a long haul trucker and XM Satellite Radio offers me an invaluable service by providing me weather and traffic reports in an easy to access format.

With XM I don't have to search all over the AM dial to find a station that might, at the moment I need it, give up to date traffic reports.

With XM it's accurate, up to date, and 24/7.

Thank you for your attention to this matter.

Robert Steffen
Silverton, OR.
